Faucets

Without faucets, it is hard to meet our hygienic demands. Because these small fixtures are an extremely important component of either your kitchen or bathroom, they can be the source of frustration due to leaks, odd noises, and mismatched finishes. Fortunately, Celesta faucets will save you from the headaches caused by having to deal with these commonly-experienced issues.

Our faucets are manufactured with durable materials and produced per the latest industry standards to provide exceptional quality and the longest possible lifespan. Each single faucet is rigorously tested before the packaging stage to ensure it meets our quality standards.

The faucets are guaranteed to provide long-lasting and exceptional performance because they are made with 100% high-quality brass bodies, ceramic cartridges rated for more than 1,000,000 cycles, and water-saving aerators. The faucets are easy to use, install, and maintain thanks to their ergonomic handles, approved flexible hoses, and plumber-friendly parts.

To complement any style, our faucets are available in many colors and finishes that are sure to complement any color scheme you desire.

Advanced Kitchen Mixers

Cosmo

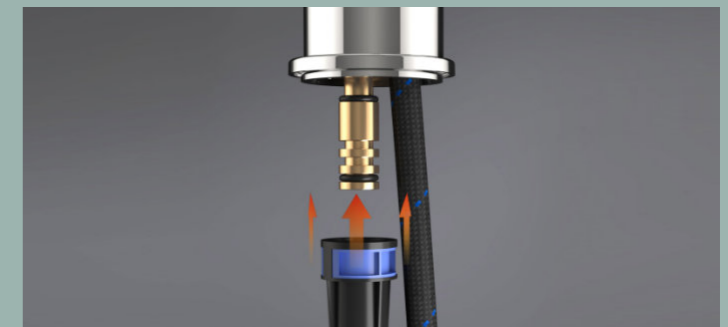

Flexibility Meets Design

Cosmo has the flexibility to deliver water to every corner of even double sinks with its spiraled head and 360° swivel spout.

MagnetClick™

At the end of Use, the MagnetClick™ magnetic system makes it easy to pull back the hood and pin it down. In addition, Cosmo's superior water experience is covered by a 10-year warranty.

EasyFix™

The special water connection makes assembling the mixer in narrow spaces very easy.

Soft Flow Function

As standard the water comes in the soft form, mixed with air thanks to Cosmo's water saving aerator.

Jet Flow Function

With the pull of the button located at the bottom of the spout, the water flow turns into a strong jet form to easily clean tough remains off of dishes.

Shower Systems

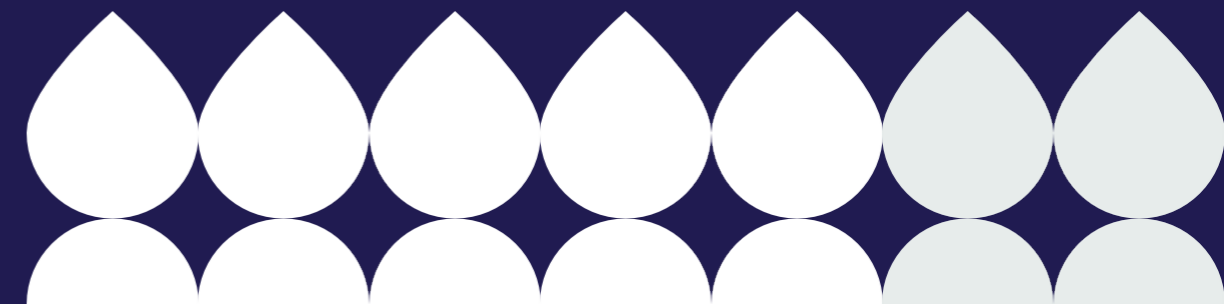

Nothing conveys modern and contemporary more than our high-quality Modum shower systems, designed for dependability and efficiency.

Our range of shower solutions spans from basic hand showers to more opulent rain showers. Our Modum brass shower systems come in 4 different rain shower sets, a hand shower, and shower hoses. They have a matt black finish that complements any color scheme.

The hand shower allows you to enjoy controlled water flow thanks to the 3-mode button. You can switch from mist to a massaging, powerful spray at your convenience.

The Modum shower systems are compatible with all shower and bath faucets.

Celesta shower hoses are made of high-quality materials and components, are anti-twist, and are simple to connect. The flexible chrome hose and the black PVC hose offer flexibility and a twist-free experience.

Walk-in Showers

A walk-in shower might become a necessity for all modern homes as spa-like bathrooms gain popularity. Walk-in showers are an easy way to give your bathroom an air of effortless luxury. Such showers provide bathrooms with a modern, sleek, airy, and roomy appearance that is naturally desired. They are a fantastic option for all ages because there are no doors to push or pull open and no shower threshold to step over.

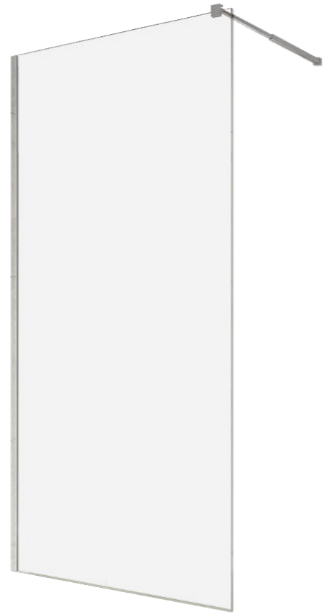

Our walk-in shower panels are available in 6 and 8 mm glass thicknesses of three types: clear, sandblasted, and smoked tempered safety glass in an aluminum profile. For mounting on the wall, they include an adjustable, stabilizing bar.

We cater to all customer aesthetic needs with a range of panel designs. The plain profile panels easily fit into any aesthetic, but if you desire a more detailed profile, you are welcome to choose one of the high-quality, non-wearing enamel-painted design options.

The walk-in shower panels' profiles are available in chrome, matt black, and gold colors.

Nano-Treated Glass

Untreated glass is porous and as a result absorbs mineral deposits and soap scum, making it more and more difficult to clean overtime. Shower glass is subject to mineral deposits from water, shampoo, soaps, body fats, and harsh scrubbing using toxic cleaners, causing the glass to discolor and develop irremovable staining. Celesta nano-treated walk-in showers contain an ultra-thin transparent glass coating that completely adheres to the surface and provides protection that will repel both water and oil based stains. Similar to a non-stick fry pan, cleaning is made easier using a mild detergent or white vinegar with a damp microfiber cloth. Scrubbing with harsh toxic cleaners is no longer needed.

Our nano-treated walk-in showers make cleaning shower glass easy and repels soap scum, grime and dirt, reducing cleaning time by up to 90%.

Shower Enclosures

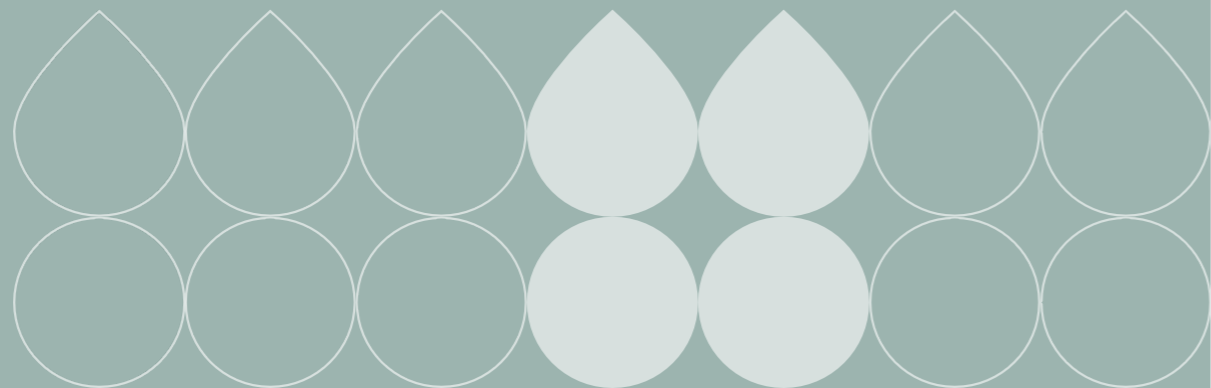

Shower enclosures are a sure way to achieve a contemporary style and customize a luxury shower and uninhibited showering experience. Shower enclosures also allow you privacy and leave the rest of your bathroom space completely dry. Explore our range of skillfully crafted and finished Titan shower enclosures to improve the look of your bathroom.

The Titan shower enclosures are built using high-quality 6 mm thick glass, aluminum profiles. The glass varieties are clear, sandblasted, and smoked finishes. You can choose a plain profile for a straightforward minimalist style or an enamel-painted design for added flair.

Three color options are available for the profiles: black for a refined look, chrome, and gold for a glam finish.

The shower enclosures can either be paired with our shower trays or, to offer a more streamlined walk-in shower appearance, be mounted directly on the floor.

The Titan shower cubicle is a valuable addition to your space, whether you select a square-shaped model or a quadrant-shaped variety that fits nicely into a room's corner.

Bathtubs

For individuals who want an indulgent shower, bathtubs are the preferred option.

Both traditional and corner baths are elegant. If you're worried that a normal bathtub won't fit in your bathroom, corner bathtubs are your best choice.
